DETAILED ACTION***Election/Restrictions***

1. *Claims 1 and 13 are generic to a plurality of disclosed patentably distinct species comprising the following species: Species (A): figure 5; Species (B): Figure 6 and Species (C): Figure 7+. In particular, the mentioned species are directed to different connection among the illuminator, the revolver, and the holder with respect to the focusing main body. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.*

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Note: The following claim(s) is/are grouped for the mentioned species.

1) Species (A): Claim 3;

2) Species (B): Claim 5;

3) Species ©: Claims 7-9.

4) Claims 2, 4, 6, 10-12 and 14 do not related to the structure used to restrict the claims; therefore, these claims will be examined with the generic claims 1 and 13 and the claimed of the elected species.
